FOREWORD

The Historical Catalogue of Brown University for 1914, published in connection with the one hundred and fiftieth anniversary of the founding of the college, differs in some respects from its predecessors, the catalogues of 1894 and 1904.

In order to keep the book of convenient size, it has been necessary to omit some material that appeared in the earlier volumes and to make later records brief. The history of the college will appear in the annual catalogues, in which the charter will not hereafter be printed. The classes of women graduates are placed together, not, as formerly, printed after the men of corresponding years. Non-graduates and special students after 1894 are separated; this discriminates students who entered with the intention of taking a degree but for some reason did not complete the college work, from those who pursued specific lines of study without the intention of completing the full college course. So far as possible membership in any of the Greek letter societies is recorded. The indexes of officers and students have been consolidated and so arranged that all the references to each name appear under the name in one place. The geographical index has been omitted because its usefulness is so soon destroyed by changes of residence. It is kept as accurately as possible at the office and any information it affords may be obtained by applying to the Keeper of Graduate Records.

Card catalogues of all the living graduates and non-graduates of the University are kept in the Alumni Room in the John Hay Library. Here are filed also all records pertaining to students past and present, so arranged as to be easily available for historical or research work.

Thanks are due to the alumni of Brown University for their prompt response to the inquiries addressed to them. Without their coöperation the present volume could not easily have been prepared.

LOUISE PROSSER BATES,
Keeper of Graduate Records.

By the authority of the Advisory and Executive Committee of the Corporation, supervision of the preparation and publication of this volume was intrusted to the Committee on the Academic Celebration of the One Hundred and Fiftieth Anniversary of the Founding of the University. The Committee desire to express in this place their appreciation of the efficiency and fidelity of Mrs. Bates, the Keeper of Graduate Records, to whose efforts is due whatever merit the volume possesses. In so great a multitude of details there must be many errors. The Committee believe that the number will be found to be small when the complexity of the material is considered.

PROVIDENCE, September 6, 1804.

Gentlemen:

NOTE: This has sometimes been called the CONSCIENTIOUS CLASS. It appears from the record, that they were unwilling to accept of parts on Commencement, unless the distribution of them on the principle of scholarship were relinquished. This could not be done consistently with President Wayland's views of the matter, and consequently all but three of the class declined being candidates for degrees. Degrees were later conferred and the date after the degree shows the year in which it was given.
